

# FourJaw Tablet

## Installation Guide

## IMPORTANT INFORMATION

Working inside Machine electrical cabinets can be dangerous.

Installation of the MachineLink should be conducted by a competent person who can safely install equipment inside an electrical cabinet.

**Please read all instructions carefully before beginning installation.**

These installation guidelines are provided in good faith to help prevent any potential problems caused by errors in installation.

FourJaw Manufacturing Analytics Ltd shall not be held responsible for installation actions taken or not taken. There are some details of installation that are assumed to be general electrical knowledge to experienced installers; which are not included in these guidelines.

All Machines are different, and it is the sole responsibility of the installer to determine which actions are safe to perform for the particular Machine they are working with.

These installation guidelines are intended to be strictly recommendations and are not to serve as a fail-safe installation checklist. The selection of an experienced installer is the sole responsibility of the customer.

FourJaw Manufacturing Analytics Ltd does not accept any responsibility for product failure resulting from or associated with improper installation.

# ITEM CHECKLIST

**Samsung Tablet**

The FourJaw Tablet comes pre-installed with FourJaw's WebApp and is secured by Samsung Knox.

**Extra Long Charging Cable**

**Tablet Mount**

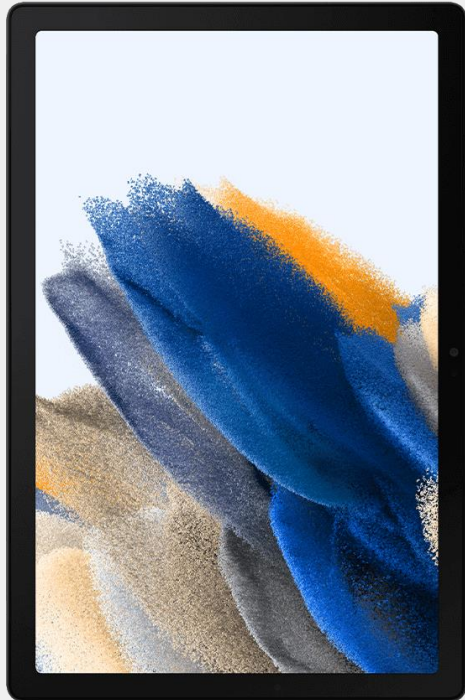

A secure, universal mount allows you to locate the FourJaw tablet at a location to suit your operators.

**Tablet Arm**

An adjustable arm for the tablet mount allows positioning where the operator needs it.

# INSTALLATION GUIDE

## 1. Turn on the Tablet

Open the packaging of the Samsung Tablet and hold the power button to turn it on. This is the shorter of the two buttons on the side.

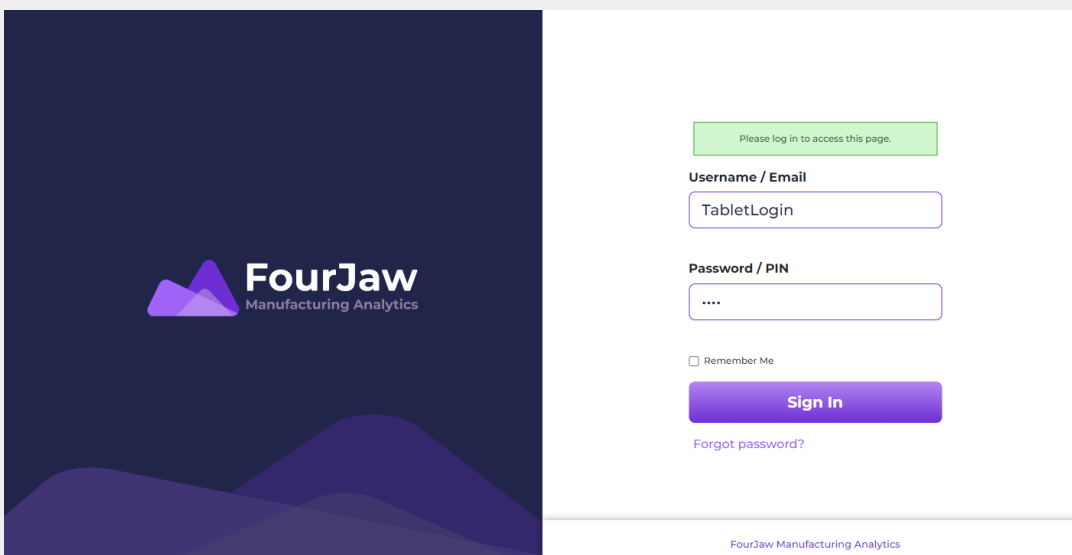

Tablets are pre-configured with Samsung Knox and are preloaded with your Wi-Fi details, making the tablets useable straight from the box. The FourJaw WebApp will load automatically once it has established a connection to your Wi-Fi network.

**Note:** you may notice the packaging has already been opened. This is normal as each tablet has been setup, so it is ready with the FourJaw Platform right out of the box.

## 02. Log In to the FourJaw WebApp

The FourJaw platform will automatically load and your username and password will have been saved.

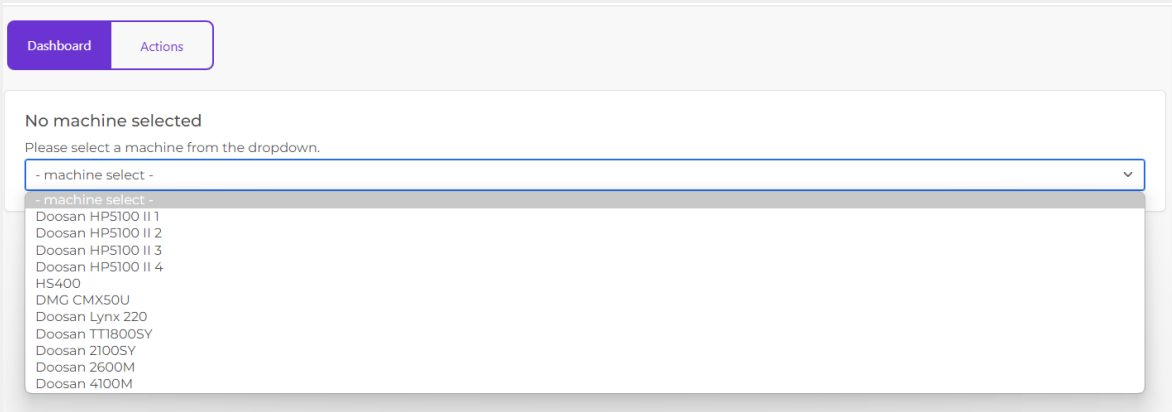

The tablets have a shared username and password which can be accessed in the settings page of the platform for future reference. All tablets login with the username "TabletLogin" and a 4-digit pin code.

# INSTALLATION GUIDE

## 03. Pair Tablet with a Machine

Select a name from the dropdown menu to pair the tablet with the machine. The tablet can then be placed to one side.

Dashboard Actions

No machine selected  
Please select a machine from the dropdown.

- machine select -

- machine select -
- Doosan HP5100 II 1
- Doosan HP5100 II 2
- Doosan HP5100 II 3
- Doosan HP5100 II 4
- HS400
- DGM CMX50U
- Doosan Lynx 220
- Doosan TT1800SY
- Doosan 2100SY
- Doosan 2600M
- Doosan 4100M

## 04. Find a Location for the Tablet Arm

Installing the mount as close to the machine controller as possible is advantageous to allow easy access to the platform for the operator.

Remove the contents of the arm and tablet mount, following the manufacturer's instructions details.

Make sure you can reach a 240v power supply to keep the tablet charged at all times.

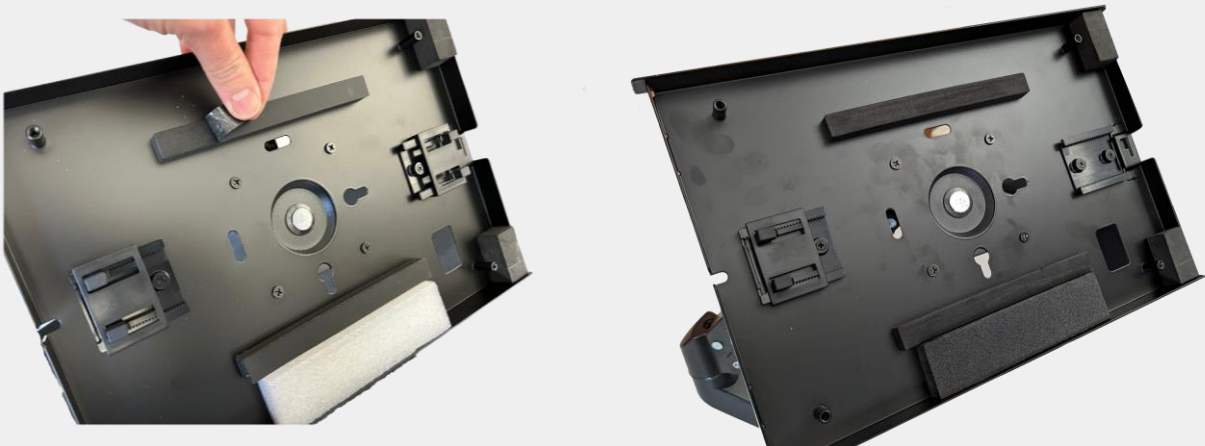

N.B. it is **not** possible to charge the tablet using one of the MachineLink USB ports.

# INSTALLATION GUIDE

## 05. Assemble Arm and Mount

Assemble the mount to the arm, removing the white foam inserts, the two top black supports and replacing the bottom with the black foam provided. The tablet will sit onto this once installed.

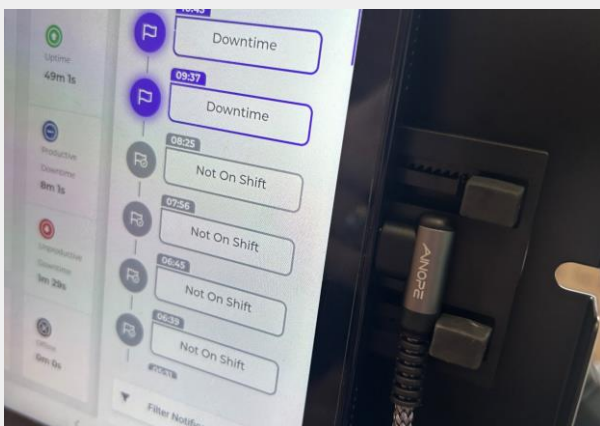

## 06. Close the Mount

Install plastic protective cover number 6 onto the tablet, remember to have the power cable routed and plugged into the tablet at this point. The power cable sits inboard of the clamp as shown

Place the metal enclosure over the top and secure using the key on the side.

Retain the key for future opening of the enclosure if required.
